He added that the Soviet negotiators seemed to think there would be no great difficulty in arranging the release of Iranian gold credits if border problems were settled. Entezam said that the USSR had not intimated that it desired to discuss matters other than those under negotiation.

Comment:	25)
a settlement of border	25)
questions on these terms would be generally favorable to the USSR.	
Moscow successfully negotiated a boundary settlement with Afghanistan	
n 1948 and renounced its territorial claims against Turkey in May 1953	

In subsequent discussions concerning the release of Iranian gold credits, the USSR may inject other matters.

5.	French Foreign Ministry official favors negotiations with Ho	
	Deputy Political Director Margerie of the	2
	French Foreign Ministry expressed to	
	American embassy representatives in Paris on 11 March his agreement with Pierre	
	Mendes-France's demand for negotiations with Ho Chi Minh, maintain-	
	ing that "the only way to make peace was to talk with those who were making war." He said that Foreign Minister Bidault had no enthusiasm	
	for the Geneva conference, which domestic pressure had forced on him.	
	The French official also noted that concern	
	over the Indochina war was far more a parliamentary than a public feel-	
	ing, since only a relatively few families have men in the professional military units subject to duty in Indochina.	
	mirrary units subject to duty in indoctina.	
	Ministry has been opposed to negotiations with the Viet Minh. Since	
	Bidault is pessimistic on the outcome of Geneva, the Foreign Ministry	
	may be considering the possibility of post-Geneva negotiations with Ho.

	EASTERN EUROPE
9,	Czechoslovakia asks help to develop coal industry:
	0.5
	The Czech delegate to the UN Economic Commission for Europe, meeting in Geneva,
	stated on 11 March that Czechoslovakia
	"would like help in the mechanization and rational use" of its coal mines. Admitting that Czech coal production is inadequate, he sug-
	gested to the ECE coal committee that greater attention be given to
	a "more rational use of European coal resources and higher productivity."
	According to a Doubour dispertal facus Consus
	According to a Reuters dispatch from Geneva, Western delegates to the meeting interpreted the Czech action as a "hint" of advances to be made at the forthcoming East-West trade talks.
	Comment: This Czech maneuver suggests that the Orbit is prepared to take new steps, through ECE, to foster
	implementation of current Orbit domestic programs.
	implementation of current Orbit domestic programs.

		: CIA-RDP79T00975A001500020001-2 25		
Beginning with the ECE meeting last Orbit countries have shown an increased willingness to discuss with Western nations on a more businesslike basis, which resul				
	number of new trade agreements.	25
